

FROM A PASSIONATE KID TO A JUNIOR BASKETBALL COACH

Brendan Keane, our long-standing player and now a junior basketball coach in our club, is a determined young man who made his dreams come true.

Ever since he was a little boy, Brendan has been a very passionate athlete. At the age of 13, after playing soccer for six years, he turned his passion around to basketball. His focus is proven by the fact that nothing could stop him from practicing basketball; he was even able to train for four hours straight at the club daily.

SYDNEY BLAZERS PRESENTATION 2020

**Most Valuable
Player**

Brendan Keane

As a determined young man chasing his dreams, he became a part of the PCYC Blacktown & Mount Druit, where he kept on developing his game skills.

Brendan has faced many obstacles, and even when the times got hard, he never gave up. He was a student at Muirfield High School when he enrolled in the Westfield Sports High School in 2021, an appropriate institution that could help him develop and nurture love towards sports even more. All this effort helped him being selected for the Hills Basketball Association U18 Division 1 representative team for the upcoming 2022 season.

He is the perfect example of how hard work and determination pay off. Who knows where passion and determination will take him in the continuing stages of life.

Sydney Blazers is more than proud to have him as a member of our team!

THE NEW VOLLEYBALL PROGRAM

this program is perfect for children with little to no experience in Volleyball. Volleyball Rookies program will help improve their skills and prepare them for Volleyball competitions

With the desire to make volleyball popular in our region again, we are pleased to present some new volleyball programs here at the Sydney Blazers.

Over the past couple of years, the popularity of volleyball in Australia has begun to drop. Even so that we didn't have Olympic volleyball representatives. To change that, our new volleyball programs will try to show, to the children, all of the great benefits practicing volleyball has.

Volleyball is a sport with multiple influencers on the optimal growth and development of the child, and therefore, represents an excellent choice for children from the earliest age. Besides the physical influence, volleyball can have a great influence on the development of the intellectual and creative traits of a child.

Our mission is to change the perspective of youngsters and allow them to increase physical ability and gain habits that will improve both their mental and physical health.

Sign up, or sign your child up for one of our programs today!
